All New England Cedar Homes are a testament to the durability and beauty of western red cedar, and to your dream of custom built cedar home. Our building systems include Post and Beam Homes and the Classic Cedar Log Home system.

Post & Beam homes from New England Cedar Homes are designed with flexibility in mind. The structural strength of your post beam construction home comes from sturdy posts positioned around the exterior shell and roof beams spanning the structure.

Featuring large open vaulted spaces, posts supporting overhead beams made of West Coast Douglas Fir, allow for the creation of walls of glass making this truly the most beautiful home building system you could ever own.

100% Free

List your business today, you get a map, a brochure, you can advertise products and links to your site, contact form and advertise your businesses specialties.

Some Directories Charge 100's for this kind of exposure. set it up right and without even your own website you could have 10 pages on the internet, that means ten more chances of being found on search engines!!
